### **1. Description of the business**

MTY Food Group Inc. (the "Company") is a franchisor in the quick service food industry. Its activities consist of franchising and operating corporate-owned locations under a multitude of banners. The Company also operates a distribution center and a food processing plant, both of which are located in the province of Quebec.

The Company is incorporated under the Canada Business Corporations Act and is listed on the Toronto Stock Exchange. The Company's head office is located at 8150, Autoroute Transcanadienne, Suite 200, Ville Saint-Laurent, Quebec.

### **2. Basis of preparation**

The condensed interim consolidated financial statements have been prepared on a historical cost basis, except for derivative financial instruments that have been measured at fair value and for provisions that have been measured at management's best estimate. The condensed interim consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company, and tabular amounts are rounded to the nearest thousand (\$000) except when otherwise indicated.

#### **Statement of compliance**

The Company's condensed interim consolidated financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting and apply the same accounting policies as those described in the Company's annual consolidated financial statements for the year ended November 30, 2014, prepared in accordance with International Financial Reporting Standards ("IFRS"), issued by the International Accounting Standards Board ("IASB").

These condensed interim consolidated financial statements do not include all of the information required under IFRS for complete financial statements and should therefore be read in conjunction with the Company's annual consolidated financial statements for the year ended November 30, 2014. The Company's annual consolidated financial statements are available on the SEDAR website at [www.sedar.com](http://www.sedar.com) and on the Company's website at [www.mtygroup.com](http://www.mtygroup.com).

These condensed interim consolidated financial statements were authorized for issue by the Board of Directors on October 7, 2015.

#### **Seasonality of interim operations**

The operations of the Company can be seasonal and the results of operations for any interim period are not necessarily indicative of the results of operation for the full fiscal year or any future period.

## **2. Basis of preparation (continued)**

### **Estimates, judgments and assumptions**

The preparation of the condensed interim consolidated financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, the disclosure of contingent assets and contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. These estimates and assumptions are based on historical experience, other relevant factors and expectations of the future and are reviewed regularly. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future period affected. Actual results may differ from these estimates.

In preparing these condensed interim consolidated financial statements, the significant judgments made by management in applying the Company's accounting policies and key sources of estimation of uncertainty are as those applied and described in the Company's audited annual consolidated financial statements for the year ended November 30, 2014.

## **3. Adoption of IFRS standards**

The following standards issued by the IASB were adopted by the Company on December 1, 2014.

### *Amendments to IAS 32, Financial Instruments: Presentation*

The amendments to IAS32 clarify the requirements for offsetting a financial asset and liability in the financial statements. The implementation of these amendments did not have a significant impact on the Company's condensed interim consolidated financial statements.

## **4. Consolidation**

### **a) Subsidiaries**

An entity is considered as a subsidiary when it is controlled by the Company or indirectly through its subsidiaries. A Company controls an entity if and only if it has all of the following:

- Holds power over the entity;
- Is exposed or has rights to variable returns from its involvement with the entity; and
- Has the ability to use its power over the entity to affect the amount of returns it obtains.

Management must make significant judgments when it assesses these various elements and all related facts and circumstances as a whole to determine whether control exists.

The Company reassesses whether it controls an entity if facts and circumstances indicate that one or more of the above-listed points have changed. The consolidated financial statements include the Company's accounts and the accounts of its subsidiaries. Subsidiaries are consolidated from the date the Company obtains control until the date the Company ceases to have control. All intercompany balances, revenues and expenses and cash flows are fully eliminated upon consolidation. When necessary, adjustments are made to the financial statements of the subsidiaries in order to align their accounting policies with those of the Company.

#### 4. Consolidation (continued)

##### b) Non-controlling interests

Non-controlling interests are recognized in equity separately from the equity attributable to the Company's shareholders. Changes in the Company's ownership interests in a subsidiary that do not result in loss of control over that subsidiary are recognized in equity. The carrying amounts of equity attributable to the Company's shareholders and of non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries.

##### *Changes in non-controlling interests*

In March, 2015, the Company acquired the remaining 20% non-controlling interests of 9286-5591 Quebec Inc. (Thai Zone), for \$800. Following the transaction, 9286-5591 Quebec Inc. has become a wholly-owned subsidiary.

##### *Changes in basis of consolidation*

In September, 2013, the Company put their 51% investment in 7687567 Canada Inc., a food processing plant in Saint-Romuald, Quebec, up for sale. The investment was then reclassified as an investment in subsidiary held-for-sale.

In July 2014, the Company acquired the interest of one of the minority shareholders for \$300 in order to facilitate a restructuring of the plant's operations. Following this transaction, the Company owned 91% of the shares of 7687567 Canada Inc.

In December, 2014, the Company increased its ownership of 7687567 Canada Inc. to 99% through the conversion of a \$750 investment, which diluted the minority shareholder's ownership. The cash call was required to help finance the operations of the subsidiary.

In May 2015, the Company deemed the future sale of 7687567 Canada Inc. no longer probable in the near future and as such, reclassified the investment from a subsidiary held-for-sale to a consolidated subsidiary. Prior period amounts, including those for the first quarter of 2015, on the condensed interim consolidated statements of income and of comprehensive income, and the statements of financial position have been restated for the change in classification.

#### 5. Future accounting changes

A number of new standards, interpretations and amendments to existing standards were issued by the International Accounting Standard Board (IASB) that are not yet effective for the period ended August 31, 2015, and have not been applied in preparing these condensed interim consolidated financial statements.

The following standards may have a material impact on the condensed interim consolidated financial statements of the Company:

Effective for annual periods beginning on or after:

IFRS 9 Financial Instruments	January 1, 2018	Early adoption permitted
IFRS 15 Revenue from contracts with customers	January 1, 2018	Early adoption permitted

## 5. Future accounting changes (continued)

IFRS 9 replaces the guidance in IAS 39 Financial Instruments: Recognition and Measurement. The Standard includes requirements for recognition and measurement, impairment, derecognition and general hedge accounting. The IASB completed its project to replace IAS 39 in phases, adding to the standard as it completed each phase. The version of IFRS 9 issued in 2014 supersedes all previous versions; however, for a limited period, previous versions of IFRS 9 may be adopted early if not already done so, provided the relevant date of initial application is before May 1, 2015. IFRS 9 does not replace the requirement for portfolio fair value hedge accounting for interest risk since this phase of the project was separated from IFRS project due to the longer term nature of the macro hedging project which is currently at the discussion paper phase of the due process. Consequently, the exception in IAS 39 for fair value hedge of an interest rate exposure of a portfolio of financial assets or financial liabilities continues to apply.

IFRS 15 replaces the following standards: IAS 11 Construction Contracts, IAS 18 Revenue, IFRIC 13 Customer Loyalty Programmes, IFRIC 15 Agreements for the Construction of Real Estate, IFRIC 18 Transfers of Assets from Customers and SIC-31 Revenue - Barter Transactions Involving Advertising Services. This new standard sets out the requirements for recognizing and disclosing revenue that apply to all contracts with customers.

The Company is in the process of determining the extent of the impact of these standards on its condensed interim consolidated financial statements.

## 6. Business acquisitions

### 1) 2015 acquisition

On December 18, 2014, the Company acquired the assets of Manchu Wok, Wasabi Grill & Noodle and SenseAsian for a total consideration of \$7,889. The purpose of the transaction was to further diversify the Company's range of offering.

Reversals	(177)	(65)
Write-off	(199)	(919)
Allowance for doubtful accounts end of period	5,385	4,305

The Company has recognized an allowance for doubtful accounts based on past experience, outlet-specific situation, counterparty's current financial situation and age of the receivables.

Trade receivables disclosed above include amounts that are past due at the end of the reporting period and for which the Company has not recognized an allowance for doubtful accounts because there was no significant change in the credit quality of the counterparty and the amounts are therefore considered recoverable. The Company does not hold any collateral or other credit enhancements over these balances nor does it have the legal right of offset against any amounts owed by the Company to the counterparty.

The concentration of credit risk is limited due to the fact that the customer base is large and unrelated.

Van Houtte	347	347
Manchu Wok	5,596	.

#### 12. Goodwill

The changes in the carrying amount of goodwill are as follows:

	August 31, 2015	November 30, 2014
	\$	\$ (restated, note 4)
Balance, beginning of year	54,574	46,295
Impairment of 7687567 Canada Inc. goodwill	(200)	.
Additional amounts recognized from business acquisitions (Note 6)	397	8,279
Balance, end of period	54,771	54,574

Goodwill was not allocated to individual CGUs; the Company has determined that the valuation of goodwill cannot be done at the CGU level, since the strength of the network comes from grouping the many banners from which the goodwill arose from. As a result, goodwill is tested as a whole, at the franchising operating segment level.

An impairment was taken for the goodwill associated with 7687567 Canada Inc. upon the re-consolidation of the subsidiary (note 4). The original valuation of the goodwill was primarily associated to a contract that was contributed to the business by one of the minority shareholders at inception. This contract was terminated in 2015.

#### 13. Credit facilities

As at August 31, 2015, the Company has access to an authorized revolving credit facility of \$30,000 and a treasury risk facility of \$1,000. One of the Company's subsidiaries also has access to a \$10,000 credit facility under the same terms and conditions. Bank indebtedness are secured by a moveable hypothec on all the assets of the Company.

The revolving credit facility bears interest at the bank's prime rate for advances in C\$ (or the bank's U.S. base rate for advance in US\$) plus a margin not exceeding 0.5% established based on the Company's funded debt/EBITDA ratio. As at August 31, 2015, the bank's prime rate was 2.70%.

(In thousands of Canadian dollars, except per share amounts)

#### 13. Credit facilities (continued)

The treasury risk facility bears interest at the market rate as determined by the lender's treasury department.

Under the terms of the credit facilities, the Company must satisfy a funded debt to EBITDA ratio of 2 to 1 and a minimum interest coverage ratio of 4.5 to 1. The credit facilities are payable on demand and is renewable annually. As at August 31, 2015, \$6,500 was drawn from the facilities in the form of banker's acceptance, with maturity dates ranging from September 2015 to November 2015. The Company is in compliance with the facilities covenants.

#### 14. Provisions

Included in provisions are the following amounts:

	August 31, 2015	November 30, 2014
	\$	\$
Litigations and disputes	746	546
Closed stores	1,080	768
	1,826	1,314
Gift card liabilities/loyalty programs liabilities	1,275	1,739
Total	3,101	3,053

The provision for litigation and disputes represent management's best estimate of the outcome of litigations and disputes that are on-going at the date of the statement of financial position. This provision is made of multiple items; the timing of the settlement of this provision is unknown given its nature, as the Company does not control the litigation timelines.

The payables related to closed stores mainly represent amounts that are expected to be disbursed to exit leases of underperforming or closed stores. The negotiations with the various stakeholders are typically short in duration and are expected to be settled within a few months following the recognition of the provision.

In the litigation and disputes and closed store provisions above, \$95 (2014 - \$nil) was unused and reversed into income. The amounts used in the year include \$789 (2014 - \$533) of the provisions for disputes and closed stores; this amount was used for the settlement of litigation and for the termination of the leases of closed stores.

Additions during the period include \$1,396 (2014 - \$404) to the litigation and closed stores provisions. The provisions were increased to reflect new information available to management.

The gift card and loyalty programs liabilities are the estimated value in gift cards and points outstanding at the date of the statement of financial position. The timing of the reversal of this provision is dependent on customer behaviour and therefore outside of the Company's control.

### *Determination of fair value*

The following methods and assumptions were used to estimate the fair values of each class of financial instruments:

*Cash, accounts receivable, accounts payable and accrued liabilities* . The carrying amounts approximate fair values due to the short maturity of these financial instruments.

*Loans receivable* . The loans receivable generally bear interest at market rates and therefore it is management's opinion that the carrying value approximates the fair value.

*Long-term debt* . The fair value of long-term debt is determined using the present value of future cash flows under current financing agreements based on the Company's current estimated borrowing rate for a similar debt.
